Unfortunately, the present time is marked, not only by negative elements in the social and economic sphere, but also by a weakening of hope, by a certain lack of confidence in human relationships, which gives rise to increasing signs of resignation, aggression and despair. The world in which we live runs the risk of being altered beyond recognition because of unwise human actions which, instead of cultivating its beauty, unscrupulously exploit its resources for the advantage of a few and not infrequently disfigure the marvels of nature. What is capable of restoring enthusiasm and confidence, what can encourage the human spirit to rediscover its path, to raise its eyes to the horizon, to dream of a life worthy of its vocation - if not beauty? Dear friends, as artists you know well that the experience of beauty, beauty that is authentic, not merely transient or artificial, is by no means a supplementary or secondary factor in our search for meaning and happiness; the experience of beauty does not remove us from reality, on the contrary, it leads to a direct encounter with the daily reality of our lives, liberating it from darkness, transfiguring it, making it radiant and beautiful.
